PROFILE

I'm a junior programmer, with a strong background in the creation of applications and a passion for graphics programming. I have experience in developing 2D video games using a non-commercial engine and I've also worked on 3D game development using Unity. Recently, I focused on graphics development for my final master project. This involved creating and using shaders with OpenGL and deepening my proficiency in the C++ language.

HOBBIES

I spend my spare time mostly playing video games, especially **shooters** and **MOBAs**, but recently, I've started playing **JRPGs** like Persona 5 Royale, and **survival horrors** like Signalis. Additionally, I like to **read papers** about rendering techniques to keep myself updated and I set aside time to practice some **sports**.
